

Orange Juice	2,50	Pineapple juice	3,00
Apple Juice	2,00	Strawberry juice	3,00
Citrus Juice	3,00	Apple Lemonade	4,00

Welcome to a new generation. A generation where natural things are important, and where concepts such as healthy, fresh and hand-made are highly appreciated by consumers, who value details more and more.

This is where Versatile Pro finds its niche – for this natural generation; a juicer with exceptional technology to make our lives easier. Prepared to offer freshly squeezed juice of the highest quality in a completely independent and functional manner, it can be integrated into any environment to help you do your work better than ever.

Offer the best juice with this intelligent machine and its sophisticated design, which triumphs in cafeterias, self-service stores and hotels where there is a large juice demand.

GRAPHITE ORANGE SILVER

Zumex Service
 100% QUALITY

An unbeatable pace

It squeezes up to **22 oranges per minute** to keep up with the pace of businesses with large demands without losing even a drop of quality.

Forget about reloading in each service

Its great potential is its **built-in feeder**, ready to easily load up to **10 kg of citrus fruit**, allowing the machine to work independently and preventing you from having to pay attention to each service.

Work as it suits you with Touch Control

Thanks to its convenient **Digital Display** you can configure the mode of use that adapts best to you at every moment. You will intuitively control the number of fruit squeezed, the language, and many other options that will make your work easier.

Comfortably choose how to operate

With the **Self Service** mode you will be able to prepare the juice yourself, just by pressing the tap and squeezing directly into the glass or jug; or with the **Professional**, mode, if you prefer to extract the juice automatically, by placing the tap in continuous service position and programming the number of pieces you wish to squeeze.

A smart and functional tap

With its built-in **non-drip system** for Self-Service use, and blockage option for Professional use.

Built-in waste containers

These containers make it much easier for you to remove the peel and waste.

VERSATILE PRO PODIUM
 YOUR FRESHLY SQUEEZED
 JUICE POINT OF SALE

With the same technical characteristics as Versatile Pro, the version with Podium is especially prepared to create an easy, convenient and modern self-service space. **Its autonomy and performance capacity convert it into an independent freshly squeezed juice point of sale.**

It provides hotels, convenience stores, service stations, or natural product supermarkets with a healthy and fresh point, with a juicer that is full of details, establishing the difference at a time when flavour and quality are essential.

Change its place when you wish

Its resistant, yet light, podium is designed to be able to move it easily.

Get rid of the waste easily

It has an inner trolley that enables you to easily remove the waste generated.

TECHNOLOGY
